Step 2. Fill in the necessary item information

	A	В	С	D	E	F	G	Н	I.	J	К
1	Seller SKU cod	Part number	Model number	ltem nam	Part manufactu	Tool manufactu	Toolnam	Process	Wafer size	Serial numb	ConditionID
2	SAMPLE0000	0010-70264		5-PHASE	-	AMAT	-	20	30		120

Seller SKU code (mandatory):

A unique ID for identifying the item on LAYLA. It is recommended to use the same unique ID with the one already used for other EC site etc.

Part number / Model number (mandatory but either entry is fine):

> Either "Part number" or "Model number" is mandatory to enter. You may also enter "-" (hyphen) if both part number and model number are not recognized.

Item name / Part manufacturer / Tool manufacturer / Tool name (mandatory):

> You may also enter "-" (hyphen) if any of these information is not recognized.

Process:

Indicating which semiconductor manufacturing process is an item used for. You may select "900: -" if the information is not recognized.

Wafer size:

> Size of wafer used for a semiconductor manufacturing tool. You may select "80: unknown" if the information is not recognized.

Condition ID:

Condition of item.

You may leave the mandatory information fields as "-" or "Unknown"; however, please be reminded that more accurate information provided means greater chance to be sold on LAYLA.

Step 4. Fill in the necessary item information

1	Ρ	Q	R	S	Т	U	V	W
1	Warrant	Warranty Definitio	Ship fromCount	Transportation	Freight costs calculated US	Freight costs calculated China	Freight costs calculated Taiwan	Freight costs calculated Korea
2	2	1	392	1	0	0	0	0

Warranty

Insert a number of days you provide as warranty.

Warranty definition:

> Select one from the pull-down. You may select "4: No warranty" as well.

Ship from Country:

> Country code can be found on sheet tab, "MSTcountry",

Transportation:

> Classification of freight cost (1: Flat: Same cost to all buyers; 2: Free: Free shipping; 3: Calculated: Cost varies by buyer location)

*Since LAYLA-EC.COM currently does not have automated shipping price calculation and the price adjustment is available at the time of sale, it is recommended to choose 1: Flat: Same cost to all buyers and enter the guesstimated abundance shipping price for "Freight costs calculated domestic" and "Freight costs" to ensure seller will not lose money by delivering. From TMH Inc. experience, USD 300 is enough for shipping covering almost all locations and most items (parts).

**A new classification, "4: Ask," will be added soon (currently under system development). When it's deployed, sellers do not need to enter any freight cost. Freight costs is determined by communicating with buyer at time of each sale.

Freight costs calculated domestic:

Domestic freight cost

Freight costs:

> The freight cost entered is effective when "3" is entered in "Transportation" (*Delivery price/method negotiable)

Step 5. Fill in the necessary item information

AV	AW	AX	AY	AZ	BA	BB	BC	BD	BH
Delivery	Delivery service	Delivery Note	Category1	Category2	Disp list flg	Active SKU flag	Domestic price	Price	Quantity
5	1	Delivery price/method negotiable		71	1	1	9999	9800	3

Delivery:

> Days required for shipping after received order

Delivery service:

Days required for delivery (1: First class service (1 to 3 business days); 2: Express service (1 to 5 business days); 3: Standard service (1 to 9 business days); 4: Economy service (more than 10 business days))

Category2:

- Subcategory of items
- *Category2 selected is applied to which category is the item displayed on LAYLA.
- **Category 1 is automatically determined when category 2 is selected.

Disp list flag:

- > 1: Display; 0: Not Display
- *"0: Not Display" means the item is still available but not displayed through "Search" items.

Active SKU flag:

- > 1: Active; 0: Soft Delete
- *"0: Soft Delete" means the item is sold out or unavailable for sale.

Domestic Price:

Domestic selling price. (Sales tax and other duties shall be taken into consideration for domestic selling price. Price can be the same if no need to consider taxes and duties. When seller answers "Supply" to "Demand", "Supply" price should not be lower than 90% of "Demand" price's lower limit)

Price:

International selling price. (When seller answers "Supply" to "Demand", "Supply" price should not be lower than 90% of "Demand" price's lower limit)

Quantity:

Quantity of sellable items

Step 6. The sheet tab, "description", provides the detailed information of the bulk upload template info fields
